

National Poetry Month Poster Contest Specifications

Inactive Space

This space will be trimmed a bit, so make sure that no important features of your artwork appear here, including text or other graphic elements. Think of it as background or neutral space. The inactive space will be one inch on the sides and at the bottom. At the top, it will be 3.25 inches.

Active Space

The best parts of your artwork go here! Text, photo, graphic elements—make sure everything fits within this area and that only the most “background” parts of your artwork extend into the “inactive space.”

White space will be added at the bottom so National Poetry Month sponsors can have their logos featured on the official poster.
